template instructions

- 1. select the "artwork" layer and place your graphics, text or logo on the template.
- 2. place your text and logo within the green dashed line. this is the safe area.
- please make sure you fill in the ingredient label with the required company name and address, this is a legal requirement. please do not tamper with the remainder of the ingredient text area, this is legal information which is required by trading standards in this format
- 4. If you are using text in your artwork please convert all text to outlines.
- 5. saving when using Illustrator CC save as an 'illustrator default' pdf. when using any other software save your file as a print ready pdf, ideally using the pdf/x-1a:2001 setting.
